

Financial Aid Options at Ruth Washburn

Ruth Washburn Financial Aid-All Ruth Washburn Families are eligible to apply

The purpose of the financial aid program is to enable a student of any background to attend the school who might otherwise be unable to attend because of financial limitations.

Financial need is the primary criteria for the selection of financial aid recipients. **We use 250% of the federal poverty level as the highest amount a family can make and still qualify for aid. Please see the chart below for maximum income amounts to qualify through financial need.**

Adults and children in household	maximum income to apply
2	\$ 40,050.00
3	\$ 50,400.00
4	\$ 60,750.00
5	\$ 71,100.00
6	\$ 81,450.00
7	\$ 91,825.00

If you have specific questions regarding your circumstances, please call the director (Jen) at 636-3084. **Other considerations** may be made in allocating aid among those families with demonstrable financial need. In order of decreasing priority, aid should be allocated to:

- **School families:** As a cooperative nursery school, we are serving families with young children. We want **all** children in a family to have an equal opportunity to attend our school if the family has limited resources.
- **Minority families:** One goal of the school is to have a broader racial and ethnic population. The availability of financial aid is one component that can be used to realize that goal.
- **Children with special needs:** The enrollment of children with special needs, within our ability to provide for their needs, is a valuable goal for our school.

A three-person committee will review all applications for aid and determine the amount of aid to be granted. This committee will be appointed by the Board of Governors. Families will be notified of final decisions within one month of the application deadline. The review process will be confidential and anonymous.

In order to offer aid to as many families as possible, financial aid generally does not exceed 50% of tuition costs, however the financial aid committee has the power to award an amount that is higher than 50% if deemed appropriate. Every financial aid family is required to pay the balance of tuition for their child/children.

Colorado Preschool Program-Families residing in District 11 are eligible to apply

The Colorado Preschool Program was established by the Colorado General Assembly to provide tuition funds for families in need. Ruth Washburn has community tuition-free spots available each year for families who qualify. Qualifying criteria include, but are not limited to:

Significant financial hardship
Premature birth

Overseas deployment
Frequent relocations by family

Traumatic events in child's life
Language or social concerns

Eligibility requirements vary depending on age. Families of three year old applicants must qualify in multiple areas. Students must turn 3 or 4 years of age by October 1 to be eligible for the program. Children who are 5 before October 1 do not qualify for this program.

The availability of preschool slots supported by CPP is subject to the Colorado legislative budget process, which determines the number of students who can receive funds each year. We will not be notified about who actually has a spot until May.

Students who receive a fee/tuition free spot will also be assessed by the trained classroom teacher three times per year using the Teaching Strategies Gold assessment system. This assessment is required by both the State of Colorado and Colorado Springs School District 11 as part of the contract we sign with them. This assessment helps to insure that all preschool students in the state of Colorado are receiving quality education.

Financial Aid Worksheet

Please fill out and return by **April 1**,
ONLY if applying for financial aid.

Fill out COMPLETELY. Incomplete applications will not be considered. Financial aid will be confidential and carry no special requirements other than those shared by the general membership. Financial aid is, however, contingent upon the child(ren) attending at least 90% of the scheduled class days for the school year. The financial aid will not be reduced or withdrawn during the school year unless the child(ren) is/are withdrawn from school. Willful neglect of the member's co-op responsibilities could be the basis for reduction or rejection of financial aid in the current or subsequent years.
